Letter of Recommendation

It is my immense pleasure to support **Yenduri Sai Venkata Satish** candidature to your institution for Master's in Computer Science program. Currently, I hold the designation of Head of Department of Computer Science & Technology in MIC College of technology. Even though it has been more than 3 years since I taught and guided **Yenduri Sai Venkata Satish**, I still clearly remember him for his innovative ideas which he showcased as a student.

I met **Yenduri Sai Venkata Satish** when he enrolled for Data Structures elective during his 3rd semester of his undergraduate studies. Though the course was for 6 months, we interacted several times outside the classroom. He also reached out to me post his graduation for professional guidance. He was not only a competitive student but also showed impressive grasp of technical concepts.

Yenduri Sai Venkata Satish was well recognized among the juniors. He actively guided them in their studies or projects whenever they approached him. He was always calm and composed, so the juniors always loved to interact with him. I was also impressed with his time management skills. He would always be on time for his classes and never failed to meet any deadlines. Despite having multiple assignments to complete in a semester, he would neither delay the submissions nor ask for extra time.

It does not come to me as a surprise that even after 3+ years of professional work experience, he is still eager to pursue Master's in Computer Science. I strongly recommend **Yenduri Sai Venkata Satish** for his graduate studies in your institution. His keen desire to explore and learn will take him far ahead in life. I wish **Yenduri Sai Venkata Satish** all the best for his graduate studies. Please feel free to contact me in case you have any queries on this recommendation.

(D.Prasad)
